

Important Notes

- You should consider your own risk tolerance level and financial circumstances before making any investment choices or investing according to the Default Investment Strategy. When, in your selection of funds or the Default Investment Strategy, you are in doubt as to whether a certain fund or the Default Investment Strategy is suitable for you (including whether it is consistent with your investment objective), you should seek financial and/or professional advice and choose the investment choice(s) most suitable for you taking into account your circumstances.
- In the event that you do not make any investment choices, please be reminded that your contributions made and/or accrued benefits transferred into the Plan will be invested in accordance with the Default Investment Strategy, which may not necessarily be suitable for you.
- Your investment decision should not be based on this document alone. Please read the MPF Scheme Brochure for BCT (MPF) Industry Choice for further details, including the risk factors.
- BCT (Industry) MPF Conservative Fund does not guarantee the repayment of capital.

Fund Choices

With 12 constituent funds available, BCT (MPF) Industry Choice is an industry scheme that provides members with fund choices covering a wide spectrum of risk / return levels to meet different members' needs. The constituent fund categorization below to which BCT's constituent funds belong is determined by BCT. Such categorization is for reference only and will be updated as and when appropriate.

Constituent Fund		Investment Manager	Fund Description	Management Fees ¹ (% per annum of net asset value)	Risk & Return Level [▲]

▲Risk & Return Level

5	High	The constituent fund aims at achieving a high long-term return among BCT funds; its volatility is expected to be high.
4	Medium to High	The constituent fund aims at achieving a medium to high long-term return among BCT funds; its volatility is expected to be medium to high.
3	Medium	The constituent fund aims at achieving a medium long-term return among BCT funds; its volatility is expected to be medium.
2	Low to Medium	The constituent fund has a low to medium expected long-term return among BCT funds; its volatility is expected to be low to medium.
1	Low	The constituent fund has a low expected long-term return among BCT funds; its volatility is expected to be low.

The Risk & Return Level for each constituent fund is assigned by BCT according to the corresponding constituent fund's volatility and expected return and is provided for reference only. Should there be any change to the Risk and Return Level of any constituent fund(s), BCT will update the associated information accordingly.

Remarks

- ¹ "Management fees" include trustee, administration and custodian fee, sponsor fee and investment management fee paid to the trustee, administrator, custodian, sponsor and investment manager of a scheme for providing their services to the relevant fund. They are usually charged as a percentage of the net asset value of a fund. In the case of the Core Accumulation Fund and the Age 65 Plus Fund, management fees payable to the parties named above, or their delegates, can only (subject to certain exceptions in the Mandatory Provident Fund Schemes Ordinance) be charged as a percentage of the net asset value of the DIS Fund. These management fees are also subject to a statutory daily limit equivalent to 0.75% per annum of the net asset value of the DIS Fund which applies across both the DIS Fund and its underlying funds.
- ² BCT (Industry) MPF Conservative Fund does not guarantee the repayment of capital. An investment in the MPF Conservative Fund is not the same as placing funds on deposit with a bank or deposit taking company and there is no guarantee that the investment can be redeemed at the subscription value. The MPF Conservative Fund is not subject to the supervision of the Hong Kong Monetary Authority. Fees and charges of MPF Conservative Fund can be deducted from either (i) the assets of the fund or (ii) members' account by way of unit deduction. This fund uses method (i) and, therefore, unit prices / NAV / fund performance quoted have incorporated the impact of fees and charges.
